PROFESSIONAL SUMMARY

Full-stack software engineer and technical project manager with 3+ years of experience designing, building, and deploying production web and mobile applications for real-world users. Experienced in leading full project lifecycles from system architecture and feature planning to deployment and maintenance. Strong in backend and full-stack development using Node.js, PHP (Laravel), Flask, React, and MySQL, with hands-on experience in authentication systems, APIs, cloud services, and mobile app deployment.

TECHNICAL SKILLS

- **Frontend:** React, JavaScript (ES6+), Tailwind CSS, Bootstrap, Responsive UI Development.
- **Backend:** Node.js Express.js, PHP (Laravel), Flask, Django.
- **Databases:** MySQL (Advanced), MongoDB (Intermediate).
- **APIs & Systems :** REST API Development, Authentication Systems, Third-Party API Integration, Webhooks.
- **DevOps & Tools:** Tools & DevOps: Git, GitHub, Linux, cPanel Hosting, Deployment, Android Studio.
- **Concepts:** System Architecture, MVC, CRUD, Full-Stack Development, Performance Optimization, and Technical Project Management.

PROFESSIONAL EXPERIENCE

Web Developer (National Service)

Ropat Systems, Cape Coast | Oct 2025 – Present

- Resolved 20+ production bugs and optimized queries, improving system performance
- Refactored legacy systems to enable new features without downtime
- Collaborated with stakeholders to translate business needs into technical solutions

- Contributed to full-stack development across Node.js, React, PHP, and MySQL

Head of Development / Technical Team Lead

Phluowise Company LTD | Remote | 2024 – Present

- Led development of a full-scale e-commerce and customer management platform
- Managed system architecture and full-stack execution across web and mobile
- Built and deployed production web app with Appwrite backend and Firebase auth/messaging
- Delivered Android builds (AAB/APK) and published to Google Play Store

SELECTED PROJECTS

Citsa Konnect – Student Collaboration Platform

GitHub: github.com/mireku098/citsa

- Built and led development of a student platform with auth, role-based access, and messaging
- Replaced fragmented WhatsApp coordination, serving 50+ active users

Phluowise – Water Distribution E-Commerce Platform

Role: Full-Stack Engineer & Technical Team Lead

- Engineered and deployed a full e-commerce + customer management system
- Integrated Appwrite backend and Firebase auth with real-time messaging
- Delivered mobile-ready app and production Android builds (AAB/APK)

OCR Hub – AI-Powered OCR & Document Processing Platform

Live: ocrhub.42web.io

- Developed OCR web app for extracting text from images and PDFs
- Integrated OCR APIs using PHP/Flask with scalable backend workflows.
- Deployed and maintained a live platform handling real user requests

EDUCATION

Bachelor of Science (BSc) in Information Technology

University of Cape Coast

Focus Areas: Web Development, Database Management, Software Engineering, Project Management
